Liability Release

_____(Participant's name) would like to participate in Healing Reins Therapeutic Riding Program. I acknowledge the risks and the potential for risks of horseback riding, hippotherapy and horse related activities and therapies. However, I feel the possible benefits to myself/my son/my daughter/my ward are greater than the risk assumed. I hereby, intending to be legally bound, for myself, my heirs and assigns, executors or administrators, waive and release forever all claims for damages, known and unknown whether existing on the date of the agreement or in the future, against Healing Reins Therapeutic Riding, Blue Moon Stables, LLC, Rolling Hills Equestrian Center, their Board of Directors, Employees, Instructors, Therapists, Aides, Volunteers, Equines, Equine Owners, Equipment and Operating Site for any and all injuries and/or losses I/my son/my daughter/my ward may sustain while participating at Healing Reins Therapeutic Riding.

*WARNING Under Kentucky law, a farm animal activity sponsor, farm animal professional, or other person does not have the duty to eliminate all risks of injury of participation in farm animal activities. There are inherent risks of injury that you voluntarily accept if you participate in farm animal activities.

Physician Form- Physician's office MUST complete

Dear Health Care Provider:

Your patient _____is interested in participating in supervised equestrian activities. In order to safely provide this service, our operating center requests that you complete/update the Medical History & Physician's Statement. Please note that the following conditions may suggest precautions and contraindications to equine activities. Therefore, when completing this form, please note whether these conditions are present, and to what degree. If you have any questions or concerns regarding the patient's participation in therapeutic horseback riding, hippotherapy and horse related activities, please do not hesitate to contact the operating center.

Persons with Down Syndrome: Neurologic Symptoms of Atlantoaxial Instability: Present___Absent___Date_____

Patient weight during last exam_____ Height_____ Date of Exam_____

The following conditions, if present, may represent precautions and contraindications to therapeutic horseback riding.

Please circle below any of the following conditions present:

Orthopedic
Spinal Fusion
Spinal Instabilities/Abnormalities
Atlantoaxial Instabilities
Scoliosis
Kyphosis
Lordosis
Hip Subluxation & Dislocation
Osteoporosis
Pathologic Fractures
Coxas Arthrosis
Heterotopic Ossification
Osteogenesis Imperfecta
Cranial Deficits
Spinal Orthoses
Internal Spinal Stabilization Devices

Secondary Concerns
Behavior Problems
Age less than two years
Age two-four years
Acute exacerbation of chronic disorder
Indwelling catheter
Weight Control Disorder
Thought control disorder
Substance Abuse
Danger to self or others

Medical/Surgical
Allergies
Cancer
Poor Endurance
Recent Surgery
Diabetes
Peripheral Vascular Disease
Varicose Veins
Hemophilia
Hypertension
Serious Heart Condition
Stroke (CVA)

Neurologic
Hydrocephalus/shunt
Spina Bifida
Tethered Cord
Chiari II Malformation
Hydromyelia
Paralysis due to Spinal Cord Injury
Seizure Disorders

Physician's Statement

Given the diagnosis and the medical information, this person is not medically precluded from participation in equine assisted activities. I understand that the PATH Intl. Center will weigh the medical information given against the existing precautions and contraindications. Therefore, I refer this person to the PATH Intl center for ongoing evaluation to determine eligibility for participation.

Rider Weight Policy- P*lease read*

HRTR will adhere to the following guidelines when making decisions regarding rider weight. Each guideline is in place so that every member of the team (horse, rider and volunteer) may have a safe experience. Horse health, rider's weight distribution, rider's ability to dismount without hurting the horse and each volunteer's ability to safely assist a rider are all very important considerations. **Rider will be weighed on-site at intake or first lesson or when deemed necessary during a session.**

- Each horse will be evaluated as an individual and assigned a maximum carrying weight. Considerations will be made for age and health/soundness.
- Each rider will be evaluated as an individual. Considerations will be made for rider's height, range of motion, balance and ability to dismount independently.
- Each team will be evaluated to ensure that an appropriate volunteer/instructor is available to complete all emergency procedures including an emergency dismount.
- In general the following rider height to weight ratios will be followed:

Rider Height	Maximum Weight
Under 5'0" tall	150 lbs.
5' to 5'6" tall	175 lbs.
5'7" to 6' tall	200 lbs.
6'1" to 6'5" tall	250 lbs.

- The maximum amount of weight each horse can carry is determines using the following formula:
  - 20% of the horse's weight minus the weight of tack minus 10 pounds for degrees of unbalanced rider movement. (Unbalanced rider movement is determined through instructor observation while rider is mounted and thorough balance exam while non-mounted.) Other considerations are: observation of equine movement while carrying weight, and veterinary input.
- Each horse has a maximum number of lessons they may participate in per week. Therefore the number of horses available to carry higher weights may be limited.
- If, after an evaluation by at least two HRTR staff members, a rider is determined to be over the weight limit of any available HRTR horse, the participant has the option to participate in other HRTR programs, such as therapeutic horsemanship.

Riders may be asked to weigh-in on HRTR scales at any point during their riding sessions.
